

Cameron Measurement Systems designs, manufactures and distributes measurement and control instrumentation for the global oil and gas and process control industries. To lead our Materials Management team, we are recruiting an energetic, motivated individual for the position of:

INVENTORY SPECIALIST (Calgary) to lead the tactical and strategic functions of Inventory Control including material planning (MRP), inventory management, system support and infrastructure for both the Edmonton and Calgary locations, to support the needs of the organization by:

- Develop and support systems and practices that promote extraordinary results of inventory control that support efficiencies throughout the supply chain
- Work with the Warehouse group to implement warehousing techniques focused on safety, efficiency, and order/case fulfilment
- Provide a positive influence for continued development of employees in the department including, but not limited to, training opportunities and feedback
- Oversee inventory control to support customer needs, achieve balance sheet targets, and mitigate inventory risk
- Review variances and identify opportunities to improve inventory accuracy
- Oversee the proper completion of cycle counts and physical inventory counts per year and establish further counts as deemed necessary
- Oversee Receiving controls and ensure the adherence to the control policies
- Monitor production schedule and identify issues and opportunities for improvement
- Support Purchasing/Buyer during vacation/leaves/peak requirement periods

Complementing your post secondary education in business, planning, production and inventory control or relevant discipline, **(or a combination of experience & education)**, you have:

- APICS/PMAC certification or in process of completion
- Energy and commitment to goals,
- Extraordinary customer service and leadership skills,
- Possess strong computer skills in advanced level Excel, Word, PowerPoint and desired SAP
- 2 to 4 years in inventory/materials management role with progressive responsibility
